PAR FIT TM Elements

Competitive Interchanges

ENGINEERING YOUR SUCCESS.

PAR◊FIT™ Elements

Competitive Interchanges

An extensive range of competitively priced Parker quality replacement filter elements, PAR◊FIT interchange elements allow the users to acquire all their replacement elements from one quality source regardless of the original equipment manufacturer.

PAR◊FIT competitive interchange elements must conform to all the same rigorous tests as the standard Parker replacement elements. The elements meet or exceed all specifications for the following tests:

IS02941	Element Collapse/Burst Resistance
IS02942	Fabrication Integrity
IS02943	Material Compatibility
IS03724	Flow Fatigue Resistance
IS04572/ISO16889	Multipass Test

In addition to price and quality, the range of interchange elements available is key to a successful program for the user. Parker has worked diligently over the years to develop a range of elements that will meet this challenge. You can view the current list of PAR◊FIT interchange elements at www.parker.com/parfit or www.parkerhfde.com/parfit.

26,000+ interchanges for a variety of competitors, including:

- Pall
- Hy-Pro
- Hydac
- Internorman
- Schroeder
- Mahle
- MP Filtri
- PTI
- Donaldson
- Separation Technologies
- Stauff
- Eaton Vickers
- Cummins Filtration
- Zinga
- EPE
- Many Others
- Fleetguard

Global products as identified are offered worldwide through all Parker locations and utilize a common ordering code.
